Subject: Proposed Amendments to Contract

Dear Sir:

Enclosed is a proposed amendment to add Item 5, "Lamps for Rear Projection Viewers," to Task II of the subject contract. The enclosed proposal supercedes and cancels a previously submitted proposal dated December 12, 1964, to add Item 5 to Task II. In discussions with

the proposed item was clarified and restated in the form presented in the enclosed proposal. The discussions resulted from an informal letter from dated December 22, 1964, suggesting that certain previous studies be reviewed pending action on the proposed item. The studies were reviewed and the proposed Item 5 of Task II revised as enclosed.

Also enclosed is a proposed amendment to add Task III, "Evaluation Criteria," to the subject contract. The subject of Task III was reviewed and defined in discussions with

I hope these proposals will meet with your approval. If you desire any further information, please call me collect at

Declass Review by NGA.

Proposed Amendment to Contract [REDACTED]

- A. Add Item 5 to Task II of the contract with no change in contract funding or delivery:

5. Lamps for Rear Projection Viewers.

Examine the benefits, if any, of replacing the tungsten filament lamps now used in the [REDACTED] rear projection viewers and the [REDACTED] Variscan viewer with other lamp types such as Xenon, Mercury Xenon, or quartz iodine.

As stipulated in Article II of Task II, results will be reported in monthly and technical reports.

- B. Proposed Task II. Item 5. will be performed jointly by [REDACTED]

[REDACTED] consulting rate is \$200 per day and it is estimated that approximately five days of [REDACTED] time will be required.

If the proposed item is approved, please authorize the following under the "Payments Time and Materials" article, paragraph (b) "Materials (including sub-contracts)," Attachment A of the subject contract:

- a. Subcontract to [REDACTED] for the services of [REDACTED]
- b. Purchase of lamps and accessories as necessary for performance of the work.

As stipulated in Article IV of the subject contract, materials (including subcontracts) will be furnished at net cost to the contractor.

Proposed Amendment to Contract

STAT

Add Task III to the contract with no change in funds or delivery.

Task III: Evaluation Criteria

In order for the customer to establish an in-house capability to evaluate new systems and concepts, some guidelines are desired. To this end, effort on this task will be devoted to determining specific procedures for evaluating:

- A. Information productivity of new systems and concepts.
- B. The impact on exploitation methods for extracting the information productivity of new systems and concepts.
